**VALRHONA**  
Let's imagine the best of chocolate®

# Ethically minded by vocation

**Ingredients travelling for miles and miles, unregulated farming, deforestation... What if luxury food – and especially luxury chocolate – were to see difficult times because of environmental, social and health issues?**

At Valrhona, we have always looked at how our business and products impact people and the planet. We didn't waste any time deciding on the position we wanted to take. From that moment, we defined ourselves as a company whose mission statement, "Together, good becomes better", conveys the strength of the commitment.

The cocoa industry we work for each day is fair and sustainable, respecting people, resources and the planet. 100% of our cocoa beans can be traced right back to the producers\*, so we can link up with our 16,979 growers to improve their living conditions, help their children access education and support them to adopt sustainable farming practices, while we also ensure our supply chain isn't associated with any deforestation.

Within this approach, we have also enacted a daily commitment to making gastronomy more ethical. Its purpose is to create a collective movement which brings together everyone working in gastronomy to challenge the status quo and, together, invent new ways of doing things.

As we think about our dietary future, we have reimagined how we choose local ingredients, respect seasonality, recycle waste, generate a circular economy, reduce wasted energy and food, respect biodiversity, and showcase the value of community. So many practices can be re-examined from the perspective of the future of our food.

This is how we have invented, now and for future generations, gastronomy that tastes great, looks great, and does great things for the world. So that everyone can help to drive change and take part, the ultimate best practice reference – The Ethical Gastronomy Handbook – is available to support our partners through the transition. It was with this same attitude to sharing a new vision for gastronomy that Valrhona's Experimental Pastry Chef, Frédéric Bau, provided us with recipes for pastries that were healthier, more ethical and as delicious as ever in his book Reasonable Indulgence.

Thanks to this continuous hard work, Valrhona was proud to win its first certification in January 2022, renewed in October 2023, from a very demanding organization: B Corporation®. B Corporation rewards the world's most committed companies that put equal emphasis on economic, societal, and environmental performance. This certification is tangible proof that we take our chocolate's impact seriously.

*"Together, good becomes better" has never been a more timely motto.*

# Key Dates

IN VALRHONA'S HISTORY

1986

By blending together different Grand Crus, Valrhona created the world's most bitter chocolate, Guanaja 70%. It was a near-instant success with professionals and consumers alike. The ideal accompaniment to coffee, it was presented in 5g "bitesize" squares in a metal container inspired by cigar boxes.

1989

The École du Grand Chocolat is founded in Tain l'Hermitage. It enabled Valrhona to share its expertise with professionals and chefs. As a center of excellence for chocolate, L'École Valrhona has become a real hub of creativity and innovation, and it's here that the industry's latest inspirations form and grow. Three other Écoles have opened since 1989: Tokyo in 2007, Viroflay in 2010 (which now moved to Paris) and Brooklyn in 2015.

1922

Albéric Guironnet, a pastry maker and confectioner based in Ardèche, founded the Chocolaterie du Vivarais in a former woodshop in Tain l'Hermitage. He was very attentive to quality, so he roasted his cocoa beans himself; this enabled him to become a supplier for other makers and pastry chefs.

1948

The Valrhona brand's first iconic product - the Rinette chocolate bonbon - remains as relevant as ever. In fact, it's still handmade at Tain l'Hermitage. It shares its name with Albert Gonnet's daughter, Catherine (or Rinette for short).

1990

Valrhona was able to create Manjari 64%, the first Madagascan Single Origin, thanks to the strong partnerships it had forged with local producers to guarantee ethical and quality standards were firmly in place.

1992

At the foot of the Andes, the El Pedregal plantation is one of the world's heartlands for luxury cocoa, including the rare Porcelana variety. Valrhona created this plantation in 1992 to preserve the variety, making it a producer in its own right.

2001

The chocolate "fève" concept is launched.

2006

When it came into being, the Valrhona Business Foundation, or Valrhona Foundation as it is now known, had a double objective. One was to raise awareness among children and their families about both the world's vast diversity of flavors and healthy, varied diets. The other was to foster young people's interest in dessert professions and take them on their first steps towards training.

2012

During one of his cookery demonstrations, Frédéric Bau once absent-mindedly left his white chocolate in the bain-marie. The chocolate had taken on a blond hue and developed aromas reminiscent of shortbread and caramelized milk. It took eight years of research to perfect the recipe for Dulcey.

2013

Since 2013, the ambition of Valrhona's "Cité du Chocolat" has been pass on a love for great chocolate to every generation by offering sensory experiences, cookery workshops, virtual plantation visits and a few secrets from behind the scenes in the chocolate factory.

2020

Valrhona obtained B Corporation certification. By joining the B Corp® movement, Valrhona reaffirmed its determination to create a model which would impact positively on people and the planet. Because businesses can no longer just be the best in the world - they now need to be the best for the world.

2022

For 100 years now, cocoa partners, suppliers, employees, connoisseurs, makers and chefs from all over the world all contribute through their commitment to and involvement in, alongside Valrhona, the principle of "Together, good becomes better".

2023

Valrhona is throwing the chocolate-making rulebook out the window with Ogo, the first dark couverture made with whole unhulled cocoa beans. Its natural crunchy texture, intense flavor and authentically raw marbled look pave the way for vibrant taste experiences.

2025

Compoz is launched: Let your personality shine with unique chocolate you create yourself. Our professional customers can now create their own custom chocolate in just four steps thanks to the Valrhona Lab.

---

This mission is carried out by the Valrhona sourcing team, which selects the most unique cocoa varieties and forges long-term relationships with producers. This collaborative approach has allowed Valrhona to constantly enrich its knowledge of cocoa and even become a producer in certain plantations. As a result, it can innovate at every stage of the process, including cultivation, fermentation and drying.

The future of cocoa lies in the plantation, which is why we make an on-the-ground commitment alongside our cocoa producer partners. We invest to improve local communities' well-being and to create the cocoa culture of the future. With Valrhona, everyone has a role to play in the sustainable development of cocoa.

# GUANAJA

40 YEARS OF EXPLORATION

Created in 1986, Guanaja 70% has become an essential chocolate for chefs the world over. As the first dark chocolate to proudly display its cocoa content, it paved the way for a more precise, technical and creative approach to flavor.

## UNIQUE BLENDING EXPERTISE

---

Guanaja is a blend of our finest cocoas, designed to offer a stable and perfectly controlled aromatic character. This Valrhona signature guarantees a distinct bitterness, a long finish and well-balanced power.

## A CHOCOLATE DESIGNED FOR PROFESSIONALS

---

Having emerged out of pioneering work with chefs, Guanaja remains a reliable technical tool, ideal for pastries, chocolate-making and catering. Its structure and intensity make it a guaranteed success in ganache, molded chocolates, cream, ice cream or coating.

## 40 YEARS OF INSPIRATION

---

Guanaja is a Valrhona icon which continues to support makers with their creations. This chocolate is demanding, meticulously controlled, and more relevant than ever.

Guanaja means 40 years of exploration - and this is just the beginning.

# EXPERTISE FROM THE PLANTATION TO THE CHOCOLATE FACTORY

Valrhona's chocolate-making expertise empowers flavor makers to explore endless creative possibilities and devise their own personal signatures.

It all starts with the **selection of raw ingredients**, particularly the **cocoa beans**: Valrhona's sourcing team travels the world to **select the finest, most unique cocoa beans directly from plantations**.

We distinguish **blended chocolates from single origin chocolates**. For blended chocolates, our taste experts characterize the sensory profile of each batch of cocoa and **meticulously blend the aromatic profiles that are typical of each origin** until they achieve an unvarying and unique taste.

Single origin\* chocolates, meanwhile, are split into two groups: Single Origin Grand Crus made from cocoa beans sourced in a specific geographical area (such as a region or district), and Cuvées, which come from small plantations and are available in limited amounts.

Both groups are **representative of a single country's aromatic profile**.

**Long-term taste quality and consistency are guaranteed by our expert know-how and the care we lavish on each manufacturing stage.**

**Are you looking for a chocolate that is full of character, capturing all the flavor of one or more terroirs?  
Explore the chocolates in our cocoa library.**

# Pralinés & Co

The Valrhona nut range brings together three essential families: Pralinés, Gianduja-Style and Almond Pastes.

Pralinés first appeared in Valrhona's workshops more than 90 years ago. Expert skills and handiwork are employed at every stage in the manufacturing process. This way, our operators can keep a close watch over each praliné on a daily basis, guaranteeing you a consistent texture and flavor. As the pioneers of caramelized cooking, we can also provide you with a wide range of nutty pralinés. This kitchen technique brings out all green almonds' and fresh hazelnuts' raw flavor.

# CARAMELIZED PRALINÉS

## PRODUCTION SECRETS FOR CARAMELIZED PRALINÉ

A pure-sugar liquid caramel is made in a copper cauldron over a live flame, into which nuts – oven-roasted hazelnuts and/or almonds – are added at the end of the cooking process. After mixing, the syrup-coated nuts are cooled on a table and then ground and refined. This process has been the hallmark of a Valrhona praliné for over 90 years, allowing us to make intensely caramelized products.

## SPECIALTIES

### PRODUCTION SECRETS FOR NUTTY PRALINÉ

The nuts are cooked over a high heat in a sugar syrup, from which the water evaporates, leaving the nuts completely coated with grains of sandy sugar.

As the cooking continues, the sugar will caramelize, roasting the nuts right to the core.

For each recipe, the final toasting temperature determines how the nutty notes and caramel balance alongside one another.

This technique is known as **sablage** in French (which roughly translates as “crumbling”) and it is what gives the warm, full-bodied nutty notes in Valrhona’s Praliné range all their intensity and elegance.

# ALMOND PASTES

The almonds in our almond pastes are blanched and their skins removed before they are cooked in sugar syrup. This mixture is then ground as roughly or finely as the end product requires. Two of our four products use Provençal almonds, and there are several cocoa percentages to choose from to suit different applications.

# COCOA FRUIT JUICE CONCENTRATE 72°BX

Oabika is a cocoa juice concentrate derived from **cocoa mucilage**.

This white pulp protects the beans in their pod and remains incredibly underused.

Its nuanced aromatic profile oscillates between **fruity and tangy notes** and instantly transports us to the heart of the plantations, where we can discover the rare and exceptional taste of cocoa tree fruit. Its syrupy texture and amber color make it a very special ingredient and the new star in restaurant and store kitchens around the world.

The recommended uses for this product are coatings, sauces, glazes, ganaches, jellies, mousses, creams, ice creams, sorbets and drinks.

## The extraordinary taste of cocoa fruit

When you taste Oabika, you will experience the extraordinary flavor of cocoa fruit, with powerful acidity and surprising aromas. It has a very nuanced profile, oscillating between subtle fermented notes, fruity notes of small, tangy berries such as redcurrant and more indulgent notes of candied fruit.

Oabika is an ode to creative escapism. The unusual taste instantly transports you deep inside cocoa plantations to uncover a mysterious fruit, with an exceptional treasure hidden inside the pod.

## Adding value to an exceptional raw material

The fresh juice is harvested sustainably and responsibly directly from cacao plantations in Ghana, then filtered, pasteurized and gently evaporated at 72 degrees Brix, producing a 100% natural concentrate from the cocoa pulp.

Its name is inspired by the expression “gold of the pod” translated in Ghanaian language Twi, and it refers to cocoa mucilage. This special resource remains undervalued.

In promoting this exceptional raw material, Valrhona is continuing its commitment to making the cocoa industry fair and sustainable by using another part of the pod and enabling cocoa producers to generate additional revenue from selling this co-product.

# HOW IS OABIKA MADE?

## 1. Harvest

THE COCOA PODS ARE PICKED THEN OPENED.

## 2. Extraction

THE BEANS AND MUCILAGE ARE PRESSED TO EXTRACT THE JUICE USING A MOBILE UNIT THAT GOES STRAIGHT ONTO THE PLANTATION.

## 3. Transport

THE JUICE IS PLACED IN BUCKETS, WHICH ARE THEN QUICKLY TRANSPORTED BY MOTORBIKE TAXI TO THE FACTORY.

## 4. Pasteurization

THE JUICE IS PASTEURIZED.

## 5. Concentration

THE PRODUCT'S FLAVOR IS PRESERVED BY CONCENTRATING IT GENTLY AT UP TO 72°BRIX. THE WATER CONTENT EVAPORATES. THE VOLATILE, FLORAL AROMAS ARE RECOVERED AND REINJECTED INTO THE FINAL CONCENTRATE.

## 6. Product

OABIKA CONCENTRATED COCOA JUICE IS PACKAGED IN A 5KG BAG-IN-BOX\*.

# Imagining the best of chocolate... at every step

AS A PARTNER TO FLAVOR CREATIVES SINCE 1922, A PIONEER AND A LEADER IN THE WORLD OF CHOCOLATE, VALRHONA IMAGINES THE BEST OF CHOCOLATE AT EVERY STAGE OF ITS VALUE CHAIN TO CREATE A FAIR, SUSTAINABLE COCOA INDUSTRY AND INSPIRE GASTRONOMY THAT TASTES GREAT, LOOKS GREAT AND DOES GREAT THINGS FOR THE WORLD.

## SELECTING AND CULTIVATING THE FINEST COCOA ON THE PLANET

This mission is carried out by the Valrhona sourcing team, which selects the most unique cocoa varieties and forges long-term relationships with producers. This collaborative approach has allowed Valrhona to constantly enrich its knowledge of cocoa and even become a producer in certain plantations. As a result, it can innovate at every stage of the process, including cultivation, fermentation and drying. The future of cocoa lies in the plantation, which is why we make an on-the-ground commitment alongside our cocoa producer partners. We invest to improve local communities' well-being and to create the cocoa culture of the future. With Valrhona, everyone has a role to play in the sustainable development of cocoa.

“ With Valrhona, you are part of forging a sustainable future for cocoa. ”

## SHARING EXPERTISE

If we want to inspire creative, responsible gastronomy and drive forward a collective movement bringing together everyone involved in cocoa, chocolate and gastronomy, we have to share our knowledge. That knowledge is about more than skills, however – it is also about an approach and a mindset.

And what better place than a school to share what we know? Created in Tain L'Hermitage 30 years ago by pastry chef Frédéric Bau, L'Ecole Valrhona welcomes hundreds of professionals from all over the world every year. From Tain L'Hermitage to Paris, via New York and Tokyo, visitors perfect their skills and give free rein to their creativity in a place where everyone is encouraged to share and discuss chocolate and sweet cuisine. Here, sharing also means getting involved in fantastic major projects showcasing passionate people, be they renowned chefs or pastry chefs (including World Pastry Cup and C3 winners) or those of us aiming to become such. This is the aim of the Graines de Pâtissier program, which was created thanks to the Valrhona Foundation. The program gives young people aged 16 to 25 a second chance at getting into the workforce by opening up opportunities in a sector recruiting new talent, namely pastry-making, chocolate-making and baking. Thanks to Valrhona, chocolate enthusiasts' ranks are swelling and the profession can continue to shine.

## FROM EXPANDING AROMATIC PALETTES TO A CHOCOLATE REVOLUTION

Valrhona is constantly pushing back the limits of creativity to expand ethical chocolate's aromatic palette and spark the next revolution. It is with this in mind that the team tries, tests, makes mistakes (sometimes) and starts over (always) so that it can offer something new and creative. This approach was what brought about Guanaja (the most bitter chocolate in the world when it was launched in 1986), Dulcey blond chocolate (chocolate's fourth color) and Inspiration, the first ever fruit couverture.

Our tasting panel also guarantees this incredible library of flavors' excellence, impeccable quality and consistent taste every day. With Valrhona, flavor creatives add a new dimension to their creations.

“ We are working hand-in-hand with our producers and customers to make the cocoa industry fair and sustainable - but also to make products that taste great, look great and do great things for the world. ”

# Together, good becomes better

WE WANT TO INSPIRE A COLLECTIVE MOVEMENT THAT UNITES EVERYONE IN THE COCOA, CHOCOLATE AND CULINARY INDUSTRIES AROUND A FAIR, SUSTAINABLE COCOA SECTOR AND GASTRONOMY WHICH TASTES GREAT, LOOKS GREAT AND DOES GREAT THINGS FOR THE WORLD.

## THIS MISSION IS AT THE HEART OF EVERYTHING WE DO AT VALRHONA

In practical terms, this means working with our cocoa partners to improve living conditions in producing communities, increase farmers' incomes, protect human rights, prevent deforestation and promote sustainable agricultural practices. We are also working to build a new vision for gastronomy where creativity and sustainability go hand in hand, whether through innovative products and services, promoting sustainable practices through L'École Valrhona or providing tools and support to help our customers become more sustainable themselves. We are committed to doing so while contributing as much as possible to efforts to achieve global carbon neutrality.

## CREATING A FAIR AND SUSTAINABLE COCOA SECTOR

The cocoa sector is facing multiple challenges. This is why Valrhona has decided to structure its approach around three principles: preserving terroirs and flavors, improving producers' living and working conditions, and protecting the environment. These pillars focus on major commitments, such as improving the income of farmers and their families, fighting against all forms of forced labor, particularly child labor, protecting forests and biodiversity, and our choice to join the global carbon neutrality movement. In order to achieve these objectives, Valrhona is setting up long-term partnerships with men and women working in the field within cocoa-producing companies or cooperatives that share the company's values. It has developed direct relationships in 14 countries around the world.

## MAKING PEOPLE AND INNOVATION THE DRIVING FORCES BEHIND THE BUSINESS

Valrhona's story is about people, first and foremost. Its strength lies in the bonds it forges between cocoa producers, employees and customers. This strength, in turn, is what empowers us to innovate. Valrhona is part of a community. Only by innovating alongside all our stakeholders, listening to their needs and working with them can Valrhona achieve its mission: "Together, good becomes better." Valrhona builds and maintains these relationships in various ways, including regular satisfaction surveys; focus groups with employees, customers and suppliers; and conversations with NGOs, professional bodies and other companies.

## DEVELOPING CREATIVE AND ETHICAL GASTRONOMY

Valrhona believes that gastronomy is a source of delight. The company also believes that how we feed ourselves has an impact on biodiversity, the climate and public health, and that chefs have the ability to influence our consumption habits. It is through this power that together we can have a positive impact on our planet, our food and our future. Chefs are taking steps to integrate their social and environmental impact more and more into their creations. Valrhona wishes to support them with this approach so that we can all create a gastronomy that tastes great, looks great and does great things for the world.

## CONTRIBUTING TO GLOBAL CARBON NEUTRALITY

All activities - from growing cocoa to selling chocolate - have an impact on the environment. Valrhona is committed to minimizing these impacts. For this reason, the company's main focus over the next few years will be to contribute to global efforts to achieve carbon neutrality and to reach this goal across its own value chain by 2025. It is working to reduce its greenhouse gas emissions by cutting back the footprint of its Tain l'Hermitage chocolate factory and to lower emissions from transportation by 30%, to fight deforestation and to promote sustainable agricultural practices. Valrhona is actively working to minimize its environmental impact, including reducing waste by 50% globally, using renewable energy and designing 100% of its products with the environment in mind. Valrhona ensures that its chocolate factory complies with the most stringent environmental regulations. Thanks to our ISO 14001 and ISO 5001 certifications, Valrhona is able to structure the way it manages its operations' environmental footprint and energy consumption and to guarantee the quality of the systems it has in place.

# L'École Valrhona

CHOCOLATE'S FUTURE IS INVENTED AT L'ÉCOLE VALRHONA

**C**reated in 1989 in Tain l'Hermitage as a center for chocolate expertise, L'École Valrhona has become a place for learning, creation, innovation and improvement and a hothouse for future inspiration. It is a school which focuses on creativity and technical expertise, where attendees can share their ideas about chocolate.

Tain l'Hermitage, Tokyo, Brooklyn and Paris: At four Écoles Valrhona around the world, 36 Valrhona pastry chefs welcome and train passionate virtuoso professionals. As a laboratory for ideas, hotbed of innovation and network for invaluable relationships, L'École Valrhona offers attendees a unique opportunity to perfect their skills in chocolate making, pastry making, baking, ice cream making, restaurant desserts and more. L'École also offers training led by its chefs or internationally renowned sweet cuisine professionals.

In addition to its courses, L'École regularly offers opportunities to meet fellow enthusiasts during workshops and discussion panels.

“ As a center of excellence for chocolate, L'École Valrhona has become a hub of creativity and innovation, and it's here that the industry's latest inspirations form and grow. ”

## The Essentials

### THE DIGITAL SERVICE THAT QUANTIFIES ALL YOUR DESSERTS AND OTHER SWEET TREATS

A true kitchen companion for thousands of makers and restaurateurs around the world, "The Essentials" is a collection of perfectly quantified basic recipes for all Valrhona's products.

Created by L'École Valrhona's chefs, it has made seven key categories of recipes available online (and in print), namely sponges and doughs, creamy textures, mousse textures, fruit, ice cream, chocolate and finishes. More than 120 detailed recipes with accompanying videos are available to gastronomy professionals.

With all-new features for managing your recipes, you can access "The Essentials" online. Organize all your personal recipes online and quantify them automatically depending on your chocolate and portion numbers (or preferred measurement system). We offer pre-prepared model recipes as inspiration, including logs, desserts, tarts and bars. This simple, instant resource makes it easier to create, personalize, share, produce, and save your recipes.

## The Cercle V loyalty program

The Cercle V loyalty program was created for all sweet cuisine professionals. By joining this community of chefs and creatives, members gain the opportunity to swap ideas, innovate, find inspiration and get exclusive advantages such as product previews, special recipes and exclusive events and conferences.

Cercle V has three tiers (bronze, silver and gold) depending on members' minimum annual turnover and business sector. Each tier gives you access to different benefits.

*"Phil had the idea of creating his own chocolate, so working with Valrhona was a no-brainer. We are without a doubt the largest hotel complex in Scotland and one of the largest in the UK. The aim was to find a way to stand apart from all our competitors. Valrhona was central to this. I feel that, as a young chef, it is an incredible idea to work with a company like yours to make a signature chocolate. The experience I gained from the ideas phase right through to design and development was a great learning opportunity for us all. Everyone from the chefs to the reception staff showed an interest, and this*

*opened up lots of opportunities. The whole process gives us a real identity and contributes to the company's image. I enjoyed the tasting sessions, and the second couverture was an interesting experience too as I'd got one idea in my head, but you guided me in a different direction. It's something of a synergy between two companies working side by side and sharing ideas. It's a very instructive experience, not only in terms of creating the couvertures but also the entire tasting process. We've formed a real relationship, and this is what has got us to the point where we are today."*
