❄ decoration suitable for freezing

🍯 with no added colorants, printing made from ingredients with natural coloring properties

Most ingredient-based colors are more sensitive to humidity than natural colors. Place on thawed recipes and avoid putting them in the freezer so that the decorations keep their brilliance and colors. If you want to freeze your recipes with the decorations: choose the decorations with the ❄ pictogram!

Much more than a brand: a quest for a better world!

**Chocolatree's
passionate team
is determined
to revolutionize
pastry-making.**

Our creative department, one part of the wonderful Chocolatree team!

Supporting you with your creations

We are here to support you and help you bring your creations to life all year round. Stand out from the crowd and create the “wow” factor with our standard and custom decorations. The ranges in this catalog help you express your creativity and personality. They include toppers; chocolate shavings and cups; gold and silver for sprinkling and adding; transfer sheets; molds and more besides. Browse our new catalog and find new inspiration throughout every season!

Authentic expertise

Our decorations are designed and created by our team of designers. They are printed using the 100% natural colors developed on site by our R&D experts, before being crafted with chocolate and hand-shaped in our workshop in Bons-en-Chablais (France).

Enjoy services made for you

Our teams support and advise you in a way that suits your needs. A logo on a chocolate square? An entire range designed especially for your brand? A custom mold? Our designers are here to bring all your ideas to life and help surprise and dazzle your customers.

A heartfelt approach imbued with years of ethical commitment

As an ethical decoration pioneer, Chocolatree upholds the values of authenticity and transparency. It's not always easy, but it's what we believe in! We want to help you tackle future challenges and give you the means to take action - and step by step, we have already made some pretty solid progress!

**From
2019**

We were the first company to offer you a catalog filled with products made using only natural colors! Three years later we went even further by making the choice to use “foodstuff” coloring ingredients. As a result, **25% of our products are free from color additives.**

We continue to work on developing ethically sourced food colorings every day. Flashy, glitzy decorations are a thing of the past! Our graphic designers are always ready to reduce the amount of dyes and use pastel tones to **create decorations that look good enough to eat.**

**March
2021**

All our custom molds are now made from recyclable APET. We have chosen to get rid of all recyclable PVC because it isn't actually processed in France at the moment, due to a lack of suitable industrial facilities.

**September
2021**

Chocolatree now uses only **Valrhona B Corp- or Rainforest Alliance-certified chocolate.** These labels ensure that all the chocolate in our products comes from **sustainable sources, using cocoa grown with a sense of respect for people and the planet.** We also replaced soy lecithin with sunflower lecithin to reduce allergen content.

2022

Chocolatree reaffirmed its commitment to the local economy and to making a positive impact on the Le Chablais industrial area. Over the years, we have launched various CSR initiatives which have **covered waste sorting** for employees (Chocola'tri), **fighting food waste** (in partnership with the association Phenix), and **sharing good practice** with other companies in the region.

Employee well-being also remains a priority. We have launched an annual family day, a daycare center, and a traditional spring barbecue, making Le Chablais an excellent place to work! And what's more, our results from Great Place to Work prove it.

In 2023

Discover our Empreinte range, the new generation of ethical chocolate decorations that are fantastic and free from plastic!

The plastic once used for printing and molding chocolate decorations has now been replaced with recyclable paper. That means plastic is a thing of the past!

**Dive into our original and delicious world
and amaze your customers!**

Our natural colorants

Natural colorants for all our ready-to-use or customisable decorations:

In 2019, we were the **pioneers of responsible decorations** and introduced **100% natural colors**.

Today, we are constantly **enriching our color palette** thanks to our **team of experts** who are always **on the search** for **new shades**.

Beetroot, spirulina, radish concentrate, apple, blackcurrant and cocoa powder are all **plant-based ingredients** that make it possible to create our **“foodstuffs”** (colorants and ingredients without additives).

For **dyes of natural origin** we can use plant, mineral or animal ingredients.

Our graphic designers will help you find the right color for your personalized project!

Some colorants are better suited to certain decoration techniques (blister or stencil), certain chocolates (white or dark) or certain uses (suitable for freezing, for exporting to another country, for instance).

Fantastic and free from plastic: The Empreinte range is the new generation of ethical chocolate decorations!

Fantastic and free from plastic: The Empreinte range is the new generation of ethical chocolate decorations! The plastic once used for printing and molding chocolate decorations has now been replaced with recyclable paper. That means plastic is a thing of the past!

Chocolatree: Strong roots, but always moving forward

Driven by an irrepressible desire to help you beautify your creations in ever-better ways, Chocolatree is still working step by step to innovate sustainably and revolutionize the world of decoration so that we can meet the future's CSR challenges.

Full-flavored deco- action at Chocolatree

Conscious of our capacity and power to take action, we have focused on eliminating single-use plastic - in fact, we are the first company to do so in the decoration industry!

After several unsuccessful attempts (we messed up but we made progress!), we finally got our hands on the paper we needed to print our designs without distorting them and the Empreinte range was born.

Moving to paper means no more plastic which is fantastic and more ethical.

Green decoration

The Empreinte range is making a positive mark on the pastry-making industry, because waiting for progress to happen is not an option!

This new ethical approach to gastronomy is guiding the way, as it combines subtle natural colors, pastel tones, naturally curvaceous designs and an original, elegant matte finish, all beautifully cast on a sheet of paper.

These inspired creations are an ode to nature and imprinted with all its qualities, and our design teams have created looks you are bound to love.

All chocolate, less waste sorting

Moving to paper means no more plastic (which is fantastic and more ethical).

You are going to love your beautiful chocolate decorations made on paper and cardboard, as with Chocolatree, you don't even have to worry about the recycling!

Making the world a better place is second nature to us

Ethical decoration pioneer Chocolatree aspires to transform our industry by imbuing it with greater authenticity and integrity. Despite the challenges, we are convinced that change is possible.

We want to help you take ownership of the issues facing us all so that, together, each of us has the power to contribute and take action!

·Empreinte·

Unique and elegant
matte finish.

The language of decoration

Decorations: A few techniques

Stencil

Stenciled chocolates with a handcrafted look.

A HANDCRAFTED LOOK
SUPREME FINESSE
SHINE

Information:

- Sizes and appearances may vary between products
- Air bubbles may very occasionally appear
- Fragile due to product's fineness

Recommended use:

- Place finished products reverse-side down

Blister

Chocolate pieces molded on a thermoformed sheet for a very even look.

UNIFORMITY
REGULARITY
BEAUTIFUL FINISH

Information:

- Smooth, rounded edges
- Air bubbles may appear due to the setting process (these are more visible in larger pieces and in dark and milk chocolates)

Recommended use:

- Place finished products reverse-side down

When should you put your chocolate decoration in place?

Chocolate and moisture don't get along. Use your chocolate decorations on defrosted products and avoid freezing them as this way, they will stay beautiful, shiny and crunchy.

Cut-out

Cut-out chocolate decorations for sharp, clean angles.

FINENESS
SHINE
SHARP ANGLES
CHOCOLATES WITH
CUT-OUT CENTERS

Information:

- Fragile due to product's fineness

Recommended use:

- Place finished products reverse-side down

Shaping

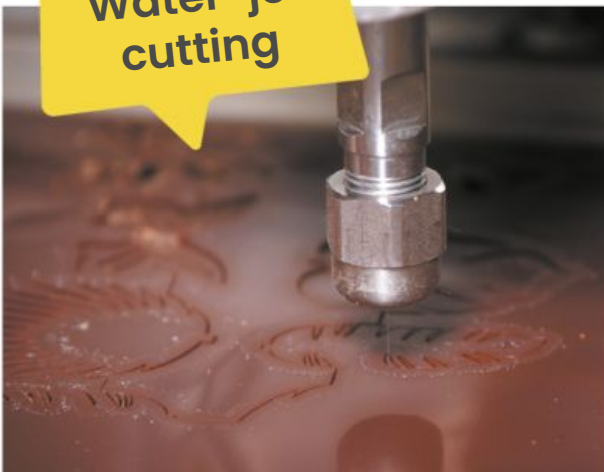

3D Chocolate Decorations.

ELEGANCE
FRAGILITY
VOLUME & FINESSE
CRAFTED CHOCOLATE PIECES

Information:

- Sizes and appearances may vary
- Fragile due to the product's fineness and texture

Water-jet cutting

Chocolate decorations cut using a high-pressure water jet.

CHOCOLATES WITH
CUT-OUT CENTERS
HIGH PRECISION
ANY DESIGN IS POSSIBLE
PRECISE CUT-OUTS

Information:

- 100% chocolate
- Crafted texture
- Fragile due to the precision cutting techniques used for each piece

Transfer

A way of transposing a design using a mixture of cocoa butter (and, potentially, white chocolate) and one or more colorants, depending on the printing technique used.

NATURAL COLORS
COCOA BUTTER

Recommended use:

- Usable with several types of product (mousses, shortcrust pastry, chocolate, chocolate bonbons, marshmallow, caramel, etc.).

·Food coloring·

Understanding food

	 Natural colorants	 Coloring foodstuffs <i>Foodstuffs</i>
Processing	From a process that respects the raw ingredient.	
Raw ingredient	Made from plant, mineral or animal ingredients. Selective extraction of pigments.	Made from plants. Non-selective extraction from fruit and vegetable plants
Flavor	Subtle (possible)	Subtle (possible)
Color intensity	Mild to intense DEPENDENT ON AMOUNT USED	
Additive or ingredient	EU-REGULATED additive	NON-EU-REGULATED ingredient
Amount used	Limited	Quantum satis TO BE USED IN REASONABLE AMOUNTS
Used by	 	

Most well-known controversies regarding synthetic dyes

Azo dyes (E102, 104, 110, E122, E124, E129) can cause hyperactivity in children.

Titanium dioxide (E171) is suspected of carcinogenic effects and is prohibited in Europe.

colorants

Fruit powders and fruit couvertures

From a process that respects the raw ingredient.

Physically processed fruits and/or vegetables.

Strong

Mild to intense
DEPENDING ON AMOUNT USED

NON-EU-REGULATED ingredient

Quantum satis
TO BE USED IN REASONABLE AMOUNTS

Synthetic colorants

Colorants whose processing changes the chemical nature of the raw ingredient.

Not always natural.

None

Mild to intense
DEPENDING ON AMOUNT USED

EU-REGULATED additive

Limited

Banned from our products since 2019

However, coloring foodstuffs are “living” ingredients, they come from plant-based ingredients that can fluctuate according to the seasons and crops and, once used, be sensitive to long-term UV exposure.

·Colorful cocoa butter· preparations

Brown

Radish, blackcurrant, apple, safflower, lemon, cocoa powder

71101VCX

Dark blue

Spirulina Extract

Suggestions for use

- Diluted before molding
- Spray or brush into a mold before molding
- Spray onto very cold desserts or molded products straight out of the freezer for a velvet effect

Tip

To achieve brighter colors on a dark molded product, first coat it in a fine layer of white chocolate.

1. Spray the colored cocoa butter
2. Spray a mix of white chocolate (70%) and cocoa butter (30%)
3. Mold the chocolate

·Colorants·

LIPOSOLUBLE POWDERS

“For use in products with higher fat contents, such as cocoa butters and couvertures. Colorants’ appearance when used at 4% and 8% strength in cocoa butter.”

Recommendations For Use:

Place in a heating unit at 30°C before use. Shake well before use. For cakes, spray straight onto creations straight out of the freezer, while they are still very cold.

Handy tip: To stop the nozzle of the bottle becoming clogged, turn the bottle upside down after each use and spray once. The pea will drop down to the nozzle, stopping any more colored cocoa butter from entering. The air expelled will then clear the nozzle.

Packaging: 400ml bottles.
