Ethically minded *by vocation*

Ingredients travelling for miles and miles, unregulated farming, deforestation... What if luxury food – and especially luxury chocolate – were to see difficult times because of environmental, social and health issues?

At Valrhona, we have always looked at how our business and products impact people and the planet. We didn't waste any time deciding on the position we wanted to take. As of 2002, we formalized our sustainable development strategy through the Live Long program. From that moment, we defined ourselves as a company whose mission statement, "Together, good becomes better", conveys the strength of the commitment.

The cocoa industry we work for each day is fair and sustainable, respecting people, resources and the planet. 100% of our cocoa beans can be traced right back to the producers, so we can link up with our 16,979 producers to improve their living conditions, help their children access education and support them to adopt sustainable farming practices, while we also ensure our supply chain isn't associated with any deforestation.

Within this approach, we have also enacted a daily commitment to making gastronomy more ethical. Its purpose is to create a collective movement which brings together everyone working in gastronomy to challenge the status quo and, together, invent new ways of doing things.

As we think about our dietary future, we have reimagined how we choose local ingredients, respect seasonality, recycle waste, generate a circular economy, reduce wasted energy and food, respect biodiversity, and showcase the value of community. So many practices re-examined from the perspective of the future of our food.

This is how we have invented, now and for future generations, gastronomy that tastes great, looks great, and does great things for the world. So that everyone can help to drive change and take part, the ultimate best practice reference – The Ethical Gastronomy Handbook – is available to support our partners through the transition. It was with this same attitude to sharing a new vision for gastronomy that Valrhona's Experimental Pastry Chef, Frédéric Bau, provided us with recipes for pastries that were healthier, more ethical and as delicious as ever in his book Reasonable Indulgence.

Thanks to this continuous hard work, in January 2020 Valrhona was proud to win certification from a very demanding organization, B Corporation®. B Corporation certification rewards the world's most committed companies that put equal emphasis on economic, societal, and environmental performance. This certification is tangible proof that we take our chocolate's impact seriously.

Doing good things with good food has never been more urgent.

OUR PARTNER M. LIBÂNIO IN BRAZIL

Valrhona first encountered M. Libânio in the state of Bahia in the late 2000s. **The company is driven by a philosophy that promotes harmony between people, soils and plants so that all can live together in a sustainable environment.** The company is located in one of the richest ecosystems in the world, the Mata Atlantica, an area which has been named a **Biosphere Reserve by UNESCO**. M. Libânio's employees use the "Cabruca" system which involves allowing taller trees such as fruit trees to grow above smaller varieties such as cacaos. Recently, M. Libânio has developed a **modern agroforestry system** which grows cocoa under the shade cast by rubber trees. Today, their plantations are certified by the **Rainforest Alliance**.

DOUBLE FERMENTATION

CREATED IN 2015

To create a new signature flavor, after over 10 years of working hand in hand with partner producers, Valrhona has revolutionized the way it processes its cocoa in plantations.

12219 ITAKUJA 55%

Single Origin Brazil cocoa

FRUITY & PASSION FRUIT

Itakuja's cocoa-rich, passion fruit notes dance a passionate samba to the beat of Bahia's famous carnival.

13757 KIDAVOA 50%

BLOND

FIRST "BLOND"-COLORED CHOCOLATE CREATED IN 2012

With Dulcey, we wanted to break free from the traditional world of white chocolate. It is an ode to creativity and boldness that is revolutionizing the pastry-making world. The name "Dulcey" is now a byword for the mellow flavor found in this special blond chocolate.

31870 BLOND DULCEY 35%

NOTES OF SHORTBREAD & A HINT OF SALT

With its very subtly salty, mellow shortbread flavor, Dulcey and its caramelized milky tones conjure up our childhoods before our very eyes, stirring up a whirlwind of delicious, uniquely personal memories.

CHOCOLATE CONCENTRATE

CREATED IN 2008

Made from the same blend of luxury cocoas as Guanaja, P125 Cœur de Guanaja 80% is less sweet than a traditional couverture chocolate, and its increased dry cocoa content heightens its aromatic power. This chocolate concentrate does not contain any added cocoa butter.

DID YOU KNOW?

WHY IS CŒUR DE GUANAJA ALSO CALLED P125?

When it was marketed in Japan, it was felt to be 25% more powerful than Guanaja, so it was renamed P125.

P = Power

100 = Guanaja's aromatic intensity
25 = 25% more intense than Guanaja

Couvertures

Valrhona's chocolate-making expertise empowers taste artisans to explore endless creative possibilities and devise their own personal signatures.

It all starts with the selection of raw ingredients, particularly the cocoa beans: Valrhona's sourcing team travels the world to select the finest, most unique cocoas directly from plantations.

We distinguish blended chocolates from single origin chocolates. When blending chocolates, our taste experts characterize the sensory profile of each batch of cocoa and meticulously blend the aromatic profiles that are typical of each origin until they achieve a constant and unique taste.

Single origin chocolates, meanwhile, are split into two groups: Single origin grands crus, which are available permanently, and cuvées from small plantations, which are available in limited quantities. Both groups are representative of a single country's aromatic profile.

Long-term taste quality and consistency are guaranteed by our expert know-how and the care we lavish on each manufacturing stage.

Are you looking for a chocolate that is full of character, capturing all the flavor of one or more terroirs? Explore the chocolates in our cocoa library.

Dominican Republic Plantation

“ Being a partner means supporting a diversified model for agriculture - including in cocoa farming - which works alongside other crops such as fruit and citrus trees. This way, producers' income is diversified and more secure. ”

CUVÉES

TAKE THE RISK OF EXCELLENCE

This is where the story begins: a Valrhona sourcing expert discovers a small cocoa plantation close to the equator. A connection between people, a heart-winning new and promising terroir.

Join us in the challenge of polishing these diamonds in the rough into precious treasure that lets all the flavors of where they were grown shine through.

Let's work together to create a cocoa industry that is fairer, more sustainable, and better for the planet.

Treat your customers to rare chocolate with an unexpected, unique taste; whisk them away on a journey with your exceptional creations.

Examples of exclusive origins (not guaranteed throughout the year).

A UNIQUE TASTE AND FRESH, NEW ORIGINS

Our sourcing team travel the world looking for cocoa with distinctive aromatic profiles in fresh new countries to offer you a unique and rare product.

A TANGIBLE COMMITMENT ON PLANTATIONS

For each of our Cuvées, a tangible commitment that reflects our three pillars of ethical cocoa:

Improving the living and working conditions of local communities

Environmental protection

Preserving terroirs and tastes

Discover the defining characteristics and history of our latest Cuvées at valrhona.com.

SINGLE ORIGIN GRAND CRUS

These chocolates can be characteristic of one or more terroirs. Similarly to a product with a protected geographical indication, **Grand Cru Single Origin** chocolates are **truly representative of their origin's aromatic profile**, so they reveal all the finesse and intensity of their home terroir.

Pralinés & Co

The Valrhona nut range brings together three essential families: Pralinés, "Gianduja-Style" and Almond Pastes.

Pralinés first appeared in Valrhona's workshops more than 90 years ago. Expert skills and handiwork are employed at every stage in the manufacturing process. This way, our operators can keep a close watch over each praliné on a daily basis, guaranteeing you a consistent texture and flavor. As the pioneers of caramelized cooking, we can also provide you with a wide range of nutty pralinés. This kitchen technique brings out all green almonds' and fresh hazelnuts' raw flavor.

PRODUCTION SECRETS FOR

NUTTY PRALINÉ

As soon as the cooking process begins, the nuts and sugar are poured into a large pot so that they cook together. This technique is known as *sablage* in French (which roughly translates as “crumbling”) and it is what gives the warm, full-bodied nutty notes in Valrhona’s Praliné range all their intensity and elegance.

ALMOND PASTES

The almonds in our almond pastes are blanched and their skins removed before they are cooked in sugar syrup. This mixture is then ground as roughly or finely as the end product requires. Two of our four products use Provençal almonds, and there are several cocoa percentages to choose from to suit different applications.

COCOA FRUIT JUICE CONCENTRATE 72°BX

Oabika is a cocoa juice concentrate, itself derived from **cocoa mucilage**, the white pulp that protects the beans in the pod and that is still incredibly undervalued. Its nuanced aromatic profile, oscillating between **fruity and tangy notes**, instantly takes us to the heart of the plantations to discover the rare and exceptional taste of the fruit of the cocoa tree. Its syrupy texture and amber color make it an exceptional ingredient, the new key ingredient for chefs and artisans around the world.

The recommended applications with this product are: coatings, sauces, glazes, ganaches, jellies, mousses, creams, ice creams, sorbets, drinks.

The extraordinary taste of cocoa fruit

When you taste Oabika, you will experience the extraordinary flavor of cocoa fruit, with powerful acidity and surprising aromas. It has a very nuanced profile, oscillating between subtle fermented notes, fruity notes of small, tangy berries such as redcurrant and more gourmet notes of candied fruit.

Oabika is an ode to creative escapism. The unusual taste instantly transports you deep inside cocoa plantations to uncover a mysterious fruit, with an exceptional treasure hidden inside the pod.

Adding value to an exceptional raw material

The fresh juice is harvested sustainably and responsibly directly from cacao plantations in Ghana, then filtered, pasteurized and gently evaporated at 72 degrees Brix, producing a 100% natural concentrate from the cocoa pulp.

Its name, inspired by "gold of the pod" translated into Twi, a language spoken in Ghana, refers to cocoa mucilage, an unexpected and still undervalued resource.

In promoting this exceptional raw material, Valrhona is continuing its commitment to making the cocoa industry fair and sustainable by using another part of the pod and enabling cocoa producers to generate additional revenue from selling this co-product.

HOW IS OABIKA MADE?

1. Harvest

THE **COCOA PODS** ARE PICKED THEN OPENED.

2. Extraction

THE **BEANS AND MUCILAGE** ARE PRESSED TO EXTRACT THE JUICE USING A **MOBILE UNIT** THAT GOES STRAIGHT ONTO THE PLANTATION.

3. Transport

THE JUICE IS PLACED IN **BUCKETS**, WHICH ARE THEN QUICKLY TRANSPORTED BY **MOTORBIKE TAXI** TO THE FACTORY.

4. Pasteurization

THE JUICE IS **PASTEURIZED**.

5. Concentration

THE PRODUCT'S **FLAVOR** IS PRESERVED BY CONCENTRATING IT GENTLY AT UP TO 72°BRIX. THE WATER CONTENT EVAPORATES. THE **VOLATILE, FLORAL AROMAS** ARE RECOVERED AND REINJECTED INTO THE **FINAL CONCENTRATE**.

6. Product

OABIKA CONCENTRATED COCOA JUICE IS PACKAGED IN A 5KG BAG-IN-BOX*.

Imagining the best of chocolate... at every step

AS A PARTNER TO TASTE ARTISANS SINCE 1922, A PIONEER AND A LEADER IN THE WORLD OF CHOCOLATE, VALRHONA IMAGINES THE BEST OF CHOCOLATE AT EVERY STAGE OF ITS VALUE CHAIN TO CREATE A FAIR, SUSTAINABLE COCOA INDUSTRY AND INSPIRE GASTRONOMY THAT TASTES GREAT, LOOKS GREAT AND DOES GREAT THINGS FOR THE WORLD.

SELECTING AND CULTIVATING THE FINEST COCOA ON THE PLANET

This mission is carried out by the Valrhona sourcing team, which selects the most unique cocoa varieties and forges long-term relationships with producers. This collaborative approach has allowed Valrhona to constantly enrich its knowledge of cocoa and even become a producer in certain plantations. As a result, it can innovate at every stage of the process, including cultivation, fermentation and drying. The future of cocoa lies in the plantation, which is why we make an on-the-ground commitment alongside our cocoa producer partners. We invest to improve local communities' well-being and to create the cocoa culture of the future. With Valrhona, everyone has a role to play in the sustainable development of cocoa.

SHARING EXPERTISE

If we want to inspire creative, responsible gastronomy and drive forward a collective movement bringing together everyone involved in cocoa, chocolate and gastronomy, we have to share our knowledge. That knowledge is about more than skills, however - it is also about an approach and a mindset.

And what better place than a school to share what we know? Created in Tain L'Hermitage 30 years ago by pastry chef Frédéric Bau, L'École Valrhona welcomes hundreds of professionals from all over the world every year. From Tain L'Hermitage to Paris, via New York and Tokyo, visitors perfect their skills and give free rein to their creativity in a place where everyone is encouraged to share and discuss chocolate and sweet cuisine.

Here, sharing also means getting involved in fantastic major projects showcasing passionate people, be they renowned chefs or pastry chefs (including World Pastry Cup and C3 winners) or those of us aiming to become such. This is the aim of the Graines de Pâtissier program, which was created thanks to the Valrhona Foundation. The program gives young people aged 16 to 25 a second chance at getting into the workforce by opening up opportunities in a sector recruiting new talent, namely pastry-making, chocolate-making and baking. Thanks to Valrhona, chocolate enthusiasts' ranks are swelling and the profession can continue to shine.

“ With Valrhona, you are part of forging a sustainable future for cocoa. ”

FROM EXPANDING AROMATIC PALETTES TO A CHOCOLATE REVOLUTION

Valrhona is constantly pushing back the limits of creativity to expand ethical chocolate's aromatic palette and spark the next revolution. It is with this in mind that the team tries, tests, makes mistakes (sometimes) and starts over (always) so that it can offer something new and creative. This approach was what brought about Guanaja (the most bitter chocolate in the world when it was launched in 1986), Dulcey blond chocolate (chocolate's fourth color) and Inspiration, the first ever fruit couverture.

Our tasting panel also guarantees this incredible library of flavors' excellence, impeccable quality and consistent taste every day. With Valrhona, flavor creatives add a new dimension to their creations.

VALRHONA'S SOURCING TEAMS TRAVEL THE WORLD TO SELECT THE FINEST, MOST UNIQUE COCOA PLANTATIONS ON THE PLANET

Over time, Valrhona's sourcing team and producers have established special, long-term relationships rooted in trust. It is thanks to these producers that the team has been able to build up its unique professional expertise.

To imagine the best of chocolate, we launched the Live Long program to embody Valrhona's CSR policy. Live Long found its feet in south-western Ghana. In May 2015, Valrhona sourcing team member Cédric was on a visit to the Wassa N'Kran community, where Valrhona was funding a new community center complete with a children's library and computer room, as well as a producer training base. He was warmly welcomed by a crowd holding up signs bearing the words "We are all Valrhonas" and "Live Long Valrhona". This was our lightbulb moment: It was there and then that we decided "Live Long" would perfectly encapsulate our long-term CSR commitments in all their different iterations.

Together, good becomes better

WE WANT TO INSPIRE A COLLECTIVE MOVEMENT THAT UNITES EVERYONE IN THE COCOA, CHOCOLATE AND CULINARY INDUSTRIES AROUND A FAIR, SUSTAINABLE COCOA SECTOR AND GASTRONOMY WHICH TASTES GREAT, LOOKS GREAT AND DOES GREAT THINGS FOR THE WORLD.

THIS MISSION IS AT THE HEART OF EVERYTHING WE DO AT VALRHONA.

In practical terms, this means working with our cocoa partners to improve living conditions in producing communities, increase farmers' incomes, protect human rights, prevent deforestation and promote sustainable agricultural practices. We are also working to build a new vision for gastronomy where creativity and sustainability go hand in hand, whether through innovative products and services, promoting sustainable practices through L'École Valrhona or providing tools and support to help our customers become more sustainable themselves. We are committed to doing so while contributing as much as possible to efforts to achieve global carbon neutrality.

ACCESS BEST PRACTICES FOR SUSTAINABLE GASTRONOMY AND THE SELF-ASSESSMENT TOOL HERE

CREATING A FAIR AND SUSTAINABLE COCOA SECTOR

The cocoa sector is facing multiple challenges. This is why Valrhona has decided to structure its approach around three principles: preserving terroirs and flavors, improving producers' living and working conditions, and protecting the environment. These pillars focus on major commitments, such as improving the income of farmers and their families, fighting against all forms of forced labor, particularly child labor, protecting forests and biodiversity, and our choice to join the global carbon neutrality movement. In order to achieve these objectives, Valrhona is setting up long-term partnerships with men and women working in the field within cocoa-producing companies or cooperatives that share the company's values. It has developed direct relationships in 14 countries around the world.

Corporation

MAKING PEOPLE AND INNOVATION THE DRIVING FORCES BEHIND THE BUSINESS

Valrhona's story is about people, first and foremost. Its strength lies in the bonds it forges between cocoa producers, employees and customers. This strength, in turn, is what empowers us to innovate. Valrhona is part of a community. Only by innovating alongside all our stakeholders, listening to their needs and working with them can Valrhona achieve its mission: "Together, let's use good food to make the world a better place." Valrhona builds and maintains these relationships in various ways, including regular satisfaction surveys; focus groups with employees, customers and suppliers; and conversations with NGOs, professional bodies and other companies.

DEVELOPING CREATIVE AND ETHICAL GASTRONOMY

Valrhona believes that gastronomy is a source of delight. The company also believes that how we feed ourselves has an impact on biodiversity, the climate and public health, and that chefs have the ability to influence our consumption habits. It is through this power that together we can have a positive impact on our planet, our food and our future. Chefs are taking steps to integrate their social and environmental impact more and more into their creations. Valrhona wishes to support them with this approach so that we can all create a gastronomy that tastes great, looks great and does great things for the world.

CONTRIBUTING TO GLOBAL CARBON NEUTRALITY

All activities - from growing cocoa to selling chocolate - have an impact on the environment. Valrhona is committed to minimizing these impacts. For this reason, the company's main focus over the next few years will be to contribute to global efforts to achieve carbon neutrality and to reach this goal across its own value chain by 2025. It is working to reduce its greenhouse gas emissions by cutting back the footprint of its Tain l'Hermitage chocolate factory and to lower emissions from transportation by 30%, to fight deforestation and to promote sustainable agricultural practices. Valrhona is actively working to minimize its environmental impact, including reducing waste by 50% globally, using renewable energy and designing 100% of its products with the environment in mind. Valrhona ensures that its chocolate factory complies with the most stringent environmental regulations. Thanks to our ISO 14001 and ISO 5001 certifications, Valrhona is able to structure the way it manages its operations' environmental footprint and energy consumption and to guarantee the quality of the systems it has in place.

“ We are working hand-in-hand with our producers and customers to make the cocoa industry fair and sustainable - but also to make products that taste great, look great and do great things for the world. ”

Services

The Essentials

THE DIGITAL SERVICE THAT QUANTIFIES ALL YOUR DESSERTS AND OTHER SWEET TREATS

A true kitchen companion for thousands of makers and restaurateurs around the world, "The Essentials" is a collection of perfectly quantified basic recipes for all Valrhona's products.

Created by L'École Valrhona's chefs, it has made seven key categories of recipes available online (and in print), namely sponges and doughs, creamy textures, mousse textures, fruit, ice cream, chocolate and finishes. More than 120 detailed recipes with accompanying videos are available to gastronomy professionals.

With all-new features for managing your recipes, you can access "The Essentials" online. Organize all your personal recipes online and quantify them automatically depending on your chocolate and portion numbers (or preferred measurement system). We offer pre-prepared model recipes as inspiration, including logs, desserts, tarts and bars. This simple, instant resource makes it easier to create, personalize, share, produce, and save your recipes!

The Cercle V loyalty program

The Cercle V loyalty program was created for all sweet cuisine professionals. By joining this community of chefs and creatives, members gain the opportunity to swap ideas, innovate, find inspiration and get exclusive advantages such as product previews, special recipes and exclusive events and conferences.

Cercle V has three tiers (bronze, silver and gold) depending on members' minimum annual turnover and business sector. Each tier gives you access to different benefits.

SIMON ATTRIDGE
Executive Pastry Chef at
Gleneagles Hotel, Scotland

"Phil had the idea of creating his own chocolate, so working with Valrhona was a no-brainer. We are without a doubt the largest hotel complex in Scotland and one of the largest in the UK. The aim was to find a way to stand apart from all our competitors. Valrhona was central to this. I feel that, as a young chef, it is an incredible idea to work with a company like yours to make a signature chocolate. The experience I gained from the ideas phase right through to design and development was a great learning opportunity for us all. Everyone from the chefs to the reception staff showed an interest, and this opened

up lots of opportunities. The whole process gives us a real identity and contributes to the company's image. I enjoyed the tasting sessions, and the second couverture was an interesting experience too as I'd got one idea in my head, but you guided me in a different direction. It's something of a synergy between two companies working side by side and sharing ideas. It's a very instructive experience, not only in terms of creating the couvertures but also the entire tasting process. We've formed a real relationship, and this is what has got us to the point where we are today."

Created in 1989 in Tain L'Hermitage as a center for chocolate expertise, L'École Valrhona has become a place for learning, creation, innovation and improvement and a hothouse for future inspiration. It is a school which focuses on creativity and technical expertise where attendees can share their ideas about chocolate.

Tain L'Hermitage, Tokyo, Brooklyn and Paris. Four L'École Valrhona schools around the world. There, 36 Valrhona pastry chefs welcome and train passionate virtuoso professionals. As a laboratory for ideas, hotbed of innovation and network for invaluable relationships, L'École Valrhona offers attendees a unique opportunity to perfect their skills in chocolate making, pastry making, baking, ice cream making, restaurant desserts and more. L'École also offers training led by its chefs or internationally renowned sweet cuisine professionals.

In addition to its courses, L'École regularly offers opportunities to meet fellow enthusiasts during workshops and discussion panels.

“ As a center of excellence for chocolate, L'École Valrhona has become a hub of creativity and innovation, and it's here that the industry's latest inspirations form and grow. ”

1922

Albéric Guironnet, a pastry maker and confectioner based in Ardèche, founded the Chocolaterie du Vivarais in a former woodshop in Tain l'Hermitage. He was very attentive to quality, so he roasted his cocoa beans himself; this enabled him to become a supplier for other makers and pastry chefs.

1948

The Valrhona brand's first iconic product - the Rinette chocolate bonbon - remains as relevant as ever. In fact, it's still handmade at Tain l'Hermitage. It shares its name with Albert Gonnet's daughter, Catherine (or Rinette for short).

1986

By blending together different Grand Crus, Valrhona created the world's most bitter chocolate, Guanaja 70%. It was a near-instant success with professionals and consumers alike. The ideal accompaniment to coffee, it was presented in 5g "bitesize" squares in a metal container inspired by cigar boxes.

1989

The École du Grand Chocolat is founded in Tain l'Hermitage. It enabled Valrhona to share its expertise with professionals and chefs. As a center of excellence for chocolate, L'École Valrhona has become a real hub of creativity and innovation, and it's here that the industry's latest inspirations form and grow. Three other Écoles have opened since 1989: Tokyo in 2007, Viroflay in 2010 (which now moved to Paris) and Brooklyn in 2015.

1990

Valrhona was able to create Manjari 64%, the first Madagascan Single Origin Grand Cru de Terroir, thanks to the strong partnerships it had forged with local producers to guarantee ethical and quality standards were firmly in place.

1992

At the foot of the Andes, the El Pedregal plantation is one of the world's heartlands for luxury cocoa, including the rare Porcelana variety. Valrhona created this plantation in 1992 to preserve the variety, making it a producer in its own right.

2001

The chocolate "fève" concept is launched.

2006

When it came into being, the Valrhona Business Foundation, or Valrhona Foundation as it is now known, had a double objective. One was to raise awareness among children and their families about both the world's vast diversity of flavors and healthy, varied diets. The other was to foster young people's interest in dessert professions and take them on their first steps towards training.

2012

During one of his cookery demonstrations, Frédéric Bau once absent-mindedly left his white chocolate in the bain-marie. The chocolate had taken on a blond hue and developed aromas reminiscent of shortbread and caramelized milk. It took eight years of research to perfect the recipe for Dulcey.

2013

Valrhona's Cité du Chocolat opened in 2013. Its ambition is to pass on a love for great chocolate to every generation by offering sensory experiences, cookery workshops, virtual plantation visits and a few secrets from behind the scenes in the chocolate factory. The Cité, located in Tain l'Hermitage, has been named France's number-one chocolate attraction and welcomes 140,000 visitors a year.

2020

Valrhona obtained B Corporation certification. This status recognizes the company's commitments and the Live Long program but, most importantly, it offers a guide for challenging the status quo and creating a positive impact on the world. By joining the B Corp® movement, Valrhona reaffirmed its determination to create a model which would impact positively on people and the planet. Because businesses can no longer just be the best in the world - they now need to be the best for the world.

2021

In collaboration with Food Made Good - the world's most widely recognized sustainability program, run by the Association de la Restauration Durable - and 30 chefs from all around the world, Valrhona launched its ethical gastronomy guide and self-assessment tool. Both are available free of charge online and they aim to support all professionals in the sweet cuisine industry in their transition towards a more responsible approach.
