through your ethical choices**

Catalog 2025 / 2026
Customizable chocolate decorations and molds

**Our chocolate decorations
add the perfect finishing touch
to all your delicious creations!**

Yule logs

Ice creams

Beverages

Plated desserts

Desserts

Petits fours

Individual pastries

Viennese pastries

Molded chocolates

Let's dazzle gourmets and showcase every craftsperson's unique "imprint" with pizzazz – all while taking an ethical approach!

Dear creators of flavor,

At Chocolatree, our vocation is to support culinary artists every day.

We do this by imagining, creating and offering you decorations that are every bit as beautiful as they are ethical. We want to contribute to your success, make your work easier and be at your side as you give your customers food that looks as good as it tastes.

What's more, we want to have an impact on our profession by shaking up conventions and **making our decorations as ethically as possible**, while sharing all the joy we get from our vocation.

As you can tell, at Chocolatree we pour our heart into our work!

With this new catalog, we are taking the next step in our ethical approach by proudly presenting **more than 60 new products and an expanded Empreinte range (plastic free)**. **Over 170 products** are still made using 100% natural-origin colors and extra-special Valrhona chocolate, but they **are now printed on recyclable paper base**. This means you too can do your bit for the environment by reducing plastic use in your kitchen.

This catalog contains creations by Pierrick Challamel, a master pastry chef and chocolatier in Douvaine (Haute-Savoie, France). Pierrick is passionate about his craft and trained in some of France's most prestigious pastry schools, and we are very grateful to him for all his creations. Thanks to his talent and creativity, our chocolate decorations shine like diamonds on every sophisticated, irresistible pastry.

Make sure you don't miss any of our new products for dazzling treats.

Enjoy!

The Chocolatree team

All catalog references are exportable to the European Union.
The flags below each reference indicate its exportability among the following countries:

If your country is not on this list, please contact our customer service department, who will inform you about the possibility of exporting!

Moisture-sensitive decorations

No coloring additives, printing using ingredients with coloring properties

PAPER BASE Empreinte range, printed on recyclable
MATTE FINISH paper, matte finish

The majority of colors based on ingredients with coloring properties are affected by moisture and beads may form in the event of freezing, condensation or contact with moisture.

Use the symbol ❄️ to see which decorations are impacted in this way!

Mastering every aspect of decoration: Our ethical commitments

Our philosophy is based on making a serious impact without taking ourselves too seriously!

As a company which delights in making chocolate decorations, we take **our three responsibilities** very seriously. We are responsible to the people who make the decorations (our staff, our wider ecosystem and our suppliers), to the people who use and eat them (artisans and their customers), and to the planet.

Chocolatree: A collective force for inspiration and innovation

Caring for everyone who helps to make our products

Our staff make Chocolatree what it is, and our brand is thoroughly imbued with their values and beliefs. In fact, Chocolatree isn't just a brand for us, it's a movement!

Our SME has the feel of a start-up and gives everyone the scope to express themselves in a way that works for them. **Creativity and wellbeing in the workplace** are central to our much-cherished business culture.

From our base in Bons-en-Chablais, in Haute-Savoie (France), we also cultivate our local roots and seek to foster a positive dynamic with everyone around us. This is why we are part of the **Bracots business collective**.

This local non-profit encourages neighboring businesses to talk to one another so that we can roll out various initiatives.

Chocolatree : a commitment to enjoy pastries without any culpability!

Caring for everyone who uses and eats our products

We believe we can't support our customers and give them something beautiful without caring for the health and dietary wellbeing of the people who will ultimately eat their products.

Our commitment to our customers and consumers always guides our product development. This catalog is filled with ready-to-use decorations made with **100% natural-origin colors***. For example, they contain no controversial ingredients (such as E170 or azo dyes), even when they are legally permitted.

And we can't talk about our chocolate decorations without mentioning **Valrhona chocolate****. As well as making our decorations deliciously indulgent, the chocolate is crafted from ethically sourced cocoa. 100% of the cocoa beans are traceable back to their producers, so we know exactly where and how the cocoa was grown.

*Only 71040VCX, 71153CCZ, 71154CCZ, 71155CCZ and 71156CCZ sprays contain E172.

**The Valrhona brand can only be used for commercial purposes with express permission.

Chocolatree: Making a sustainable imprint with Empreinte

Taking care of our planet

At Chocolatree, we firmly believe that we all need to reduce our environmental footprint. Sustainability isn't just about our choice of chocolate.

As you know, in 2023 we shook up food decoration conventions by addressing the major issue of single-use plastics with the launch of our Empreinte range.

Empreinte's story is still unfolding as we bid goodbye to plastic backing for printing and holding our chocolate decorations.

It is now **replaced with recyclable paper for all the stenciled products in this catalog.**

They are easy to spot thanks to their symbol:

PAPER BASE
MATTE FINISH

And guess what other action we are taking. We are reducing the amount of plastic we use to make our standard decorations by 30%!

But that's still not all. We have also made it possible to **customize Empreinte** so that you can have unique decorations printed on paper, combining elegance with ethics.

Last but not least, revolutionary decorations need new production techniques!

For the Christmas period, we have decided to rationalize our catalog's decorations by planning ahead for your needs so we don't produce any more than necessary.

Over November, we will stop producing certain products so we can concentrate on your custom orders while reducing the festive season's waste by a considerable margin.

These initiatives are only the start of our journey towards a more sustainable future, and **we fully intend to pursue it by exploring innovative new solutions!**

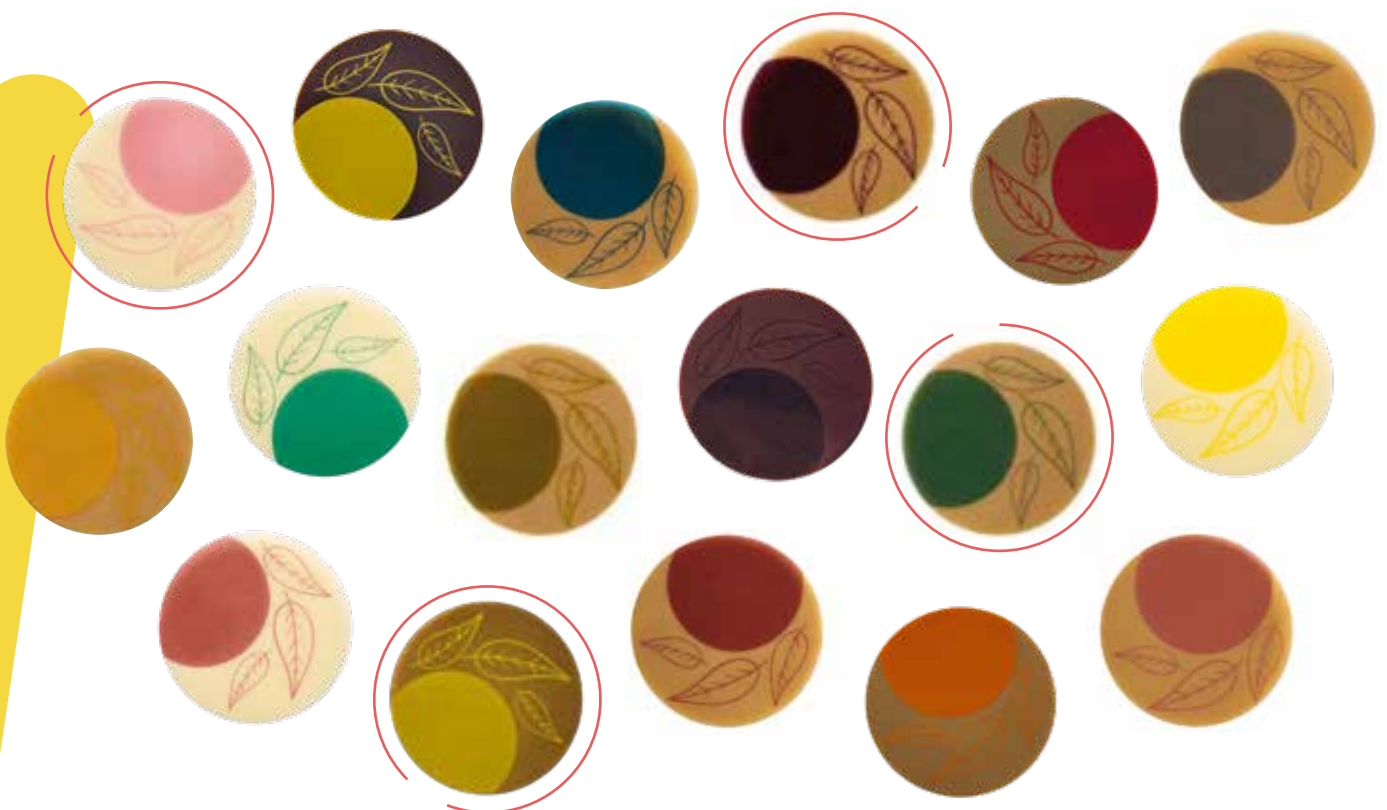

Together, let's make a world where creativity and ethics go hand-in-hand!

Our natural-origin colors

All the ready-to-use chocolate decorations in this catalog* use **natural colorants or coloring ingredients** – and these colors are available for your customized products too!

*Only 71040VCX, 71153CCZ, 71154CCZ, 71155CCZ and 71156CCZ sprays contain E172.

In 2019, we took a big step forward by being the first in our industry to provide a ready-to-use chocolate decoration catalog using **only natural colors or coloring ingredients**.

We are proud of our choice and our designers love using all these new colors to make decorations that are **every bit as beautiful, but also more natural**.

Beets, spirulina, radish concentrate, apple, blackcurrant and cocoa powder are some of the **plant-based** products that go into our **foodstuffs** (which are not considered as additive).

Our **natural colorants** are derived from plants, minerals or animals.

With our designers' support and advice, you can find just the right color for your custom project!

Some colorants are better suited to certain decoration techniques (blister or stencil), certain chocolates (white or dark) or certain uses (suitable for freezing, for exporting to another country, for instance).

Empreinte customization

The Empreinte range is the new generation of plastic-free chocolate decorations – and it can now be customized!

Why choose Empreinte customization?

- Get products specially customized by our designers
- Get an elegant, unique matte look
- Get chocolate decorations with no single-use plastic, printed on recyclable paper

Reduce your waste and make your day-to-day work easier, as there's no need to sort your packaging into different bins.

Various shapes can be customized with the Empreinte range (including rounds, ovals and yule log ends). Don't hesitate to get in touch with our customer service department or ask your sales representative how to place an order.

Our teams are here to turn your ideas into reality.

Together, let's revolutionize chocolate decorations!

Let your creativity shine and bring your unique, stenciled decorations to life so that they reflect your style and ethical approach!

Decoration glossary

Decorating techniques

stencil

Hand-stenciled chocolate decorations with an artisanal look

HAND-CRAFTED FINISH
EXTREME FINESSE
RECYCLABLE PAPER BASE
MATTE EFFECT

Information:

- Sizes and finishes may vary between products
- Fragile due to products' fineness

Recommended use:

- Piece to be placed on reverse side

Blister

Chocolate pieces molded on a thermoformed sheet for a very even look.

UNIFORMITY
REGULARITY
BEAUTIFUL FINISH

Information:

- Smooth, rounded edges
- Air bubbles may appear due to the setting process (these are more visible in larger pieces and in dark and milk chocolates)

Recommended use:

- Place finished products reverse-side down

When should you put your chocolate decoration in place?

Chocolate and moisture don't get along. Use your chocolate decorations on defrosted products and avoid freezing them as this way, they will stay beautiful and crunchy.

Cut-out

Cut-out chocolate decorations for sharp, clean angles.

FINENESS
SHINE
SHARP ANGLES
CHOCOLATES WITH
CUT-OUT CENTERS

Information:

- Fragile due to product's fineness

Recommended use:

- Place finished products reverse-side down

Shaped stencil

3D Chocolate Decorations.

ELEGANCE
FRAGILITY
VOLUME & FINESSE
CRAFTED CHOCOLATE PIECES

Information:

- Sizes and appearances may vary
- Fragile due to the product's fineness and texture

Transfer

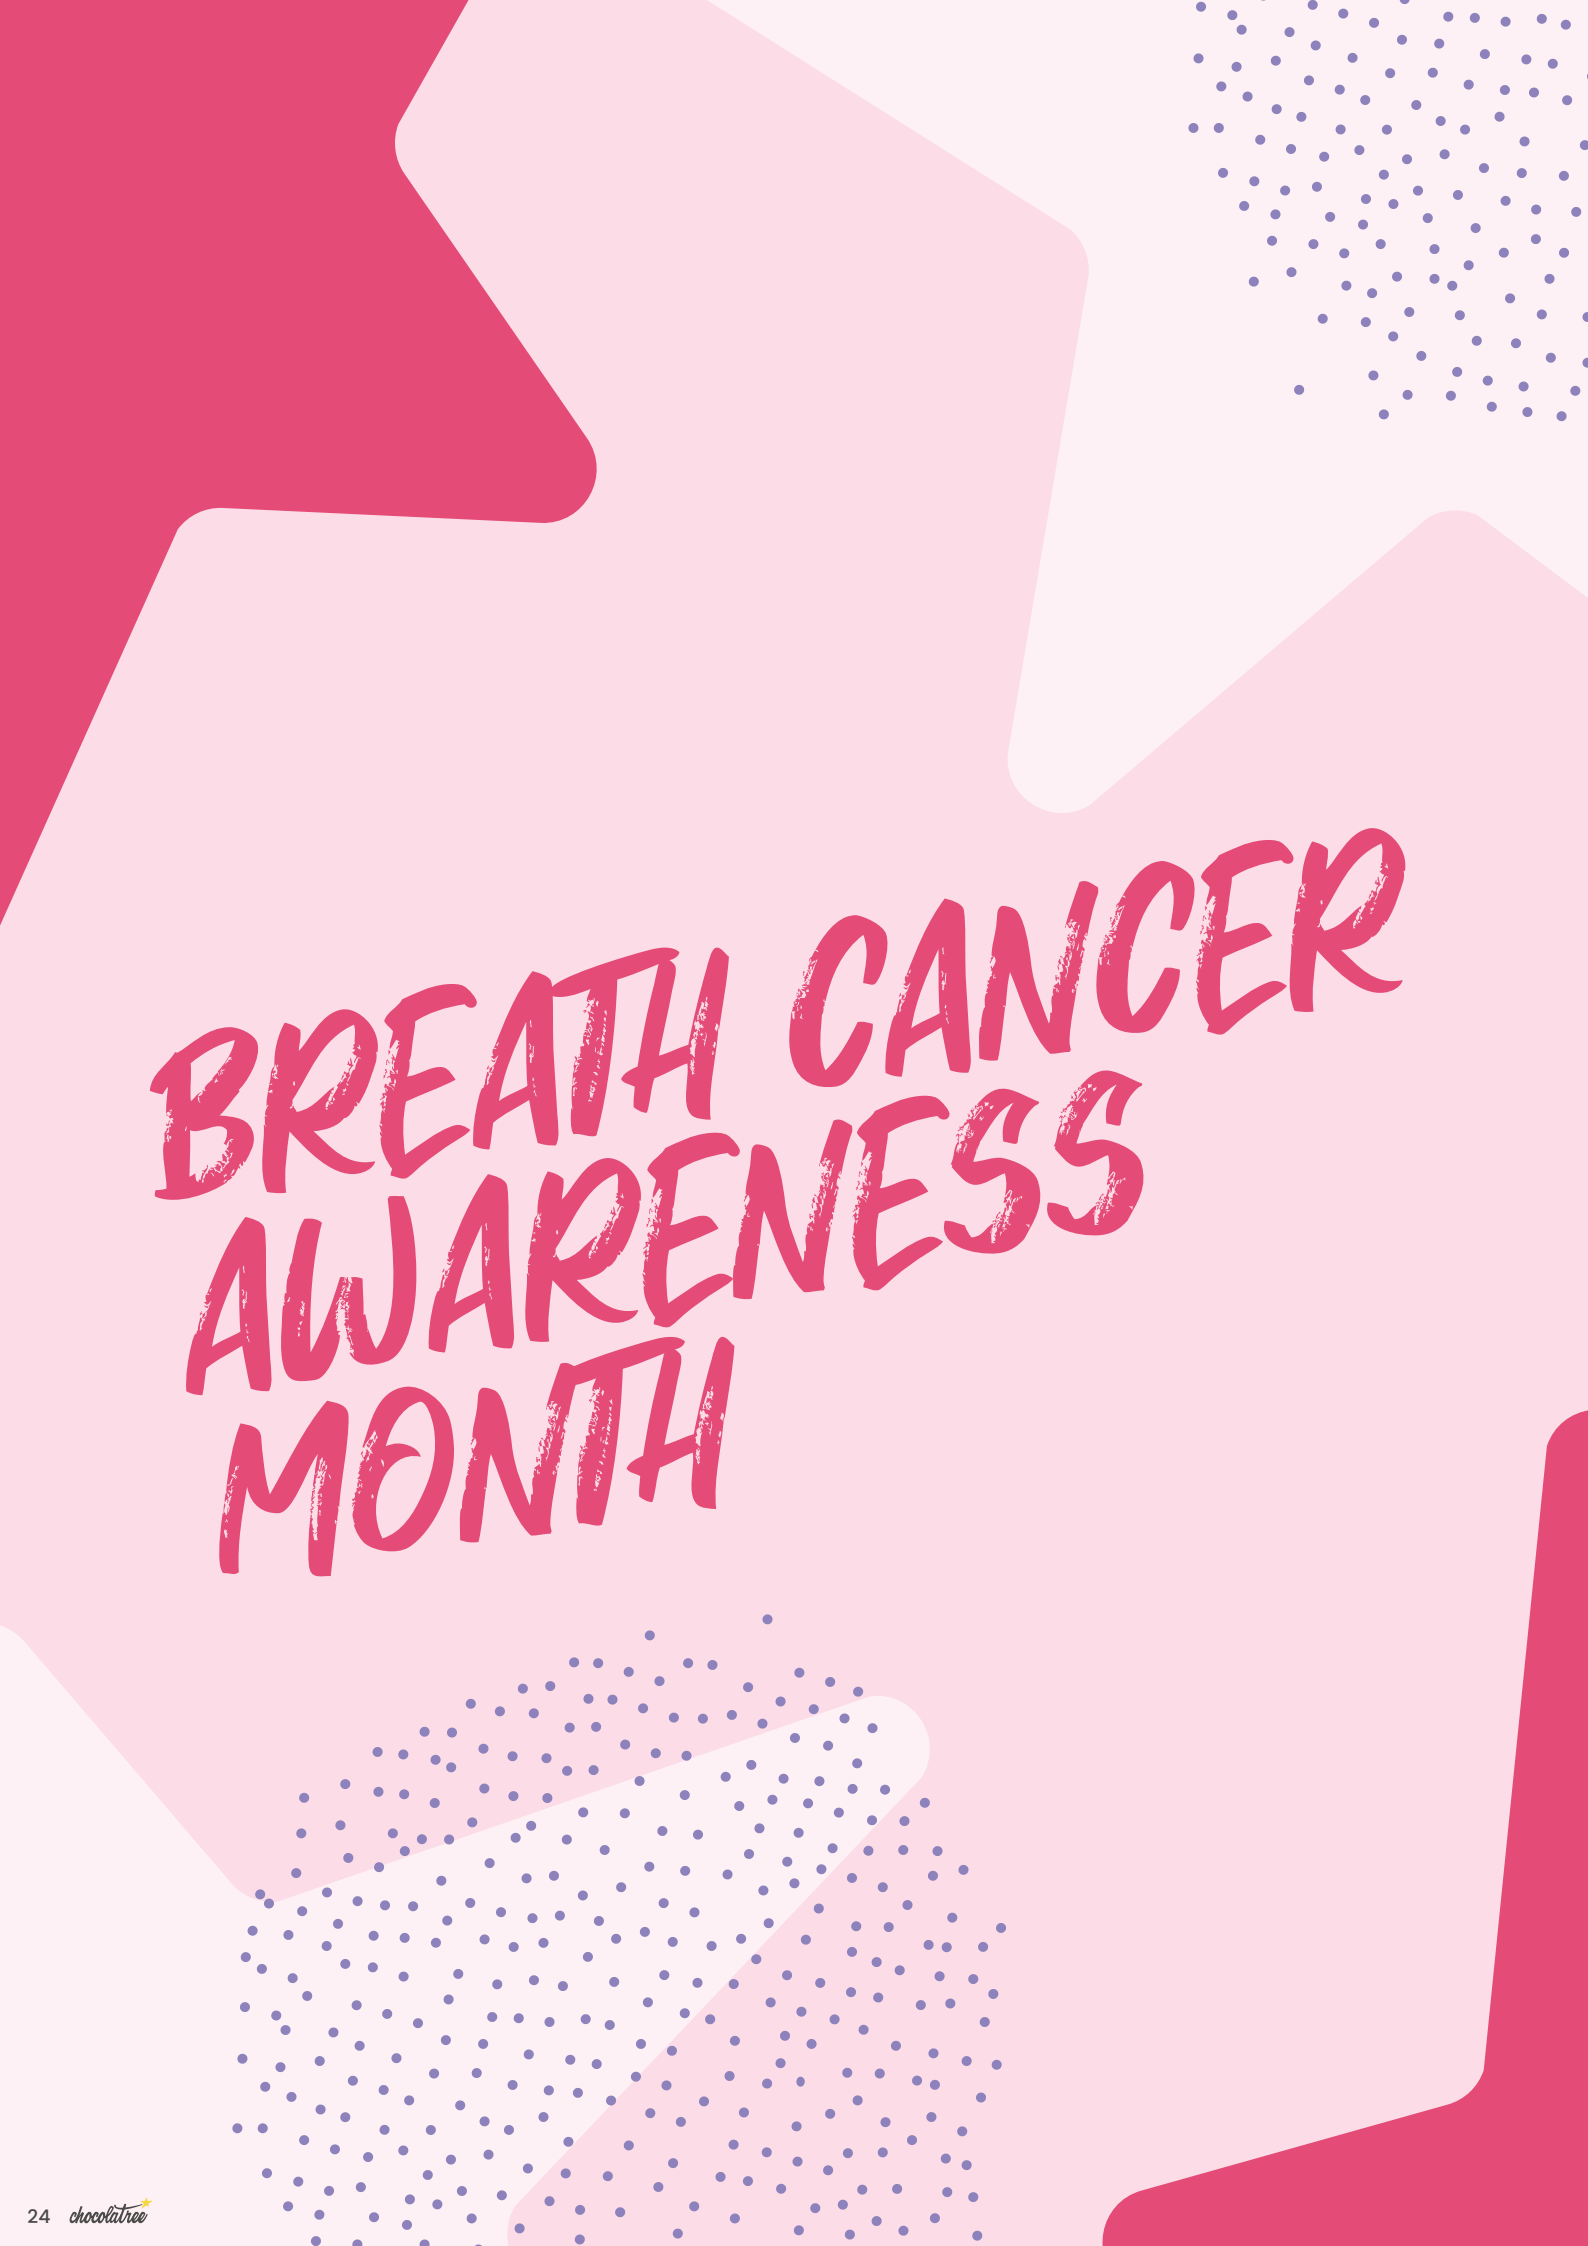

A way of transposing a design using a mixture of cocoa butter (and, potentially, white chocolate) and one or more colorants, depending on the printing technique used.

NATURAL COLORS
COCOA BUTTER

Recommended use:

- Usable with several types of product (mousses, shortcrust pastry, chocolate, chocolate bonbons, marshmallow, caramel, etc.).

The background features abstract, overlapping geometric shapes in shades of pink and magenta. Two clusters of small, dark blue dots are positioned in the upper right and lower left corners, resembling starbursts or constellations.

COLORING

Colored preparations made with cocoa butter

Packaging: 200g bottle.

Melt in a chocolate warming cupboard or bain-marie at 105/120°F (40/50°C).

Do not melt in the microwave.

Shake the bottle before use to ensure the mixture is well dispersed.

70791CCX

Dark green colored mix
Safflower, lemon, spirulina
extract

70792CCX

Light green colored mix
Safflower, lemon, spirulina
extract

70793CCX

Midnight blue colored mix
Beetroot juice powder,
spirulina extract

Tip

To achieve brighter colors on a dark molded product, first coat it in a fine layer of white chocolate.

1. Spray the colored cocoa butter
2. Spray a mix of white chocolate (70%) and cocoa butter (30%)
3. Mold the chocolate

Possible uses

- Dilute/spray before molding
- Brush into molds before pouring in the chocolate
- Spray onto molded chocolates or frozen desserts for a velvety effect"

70795CCX

Red colored mix

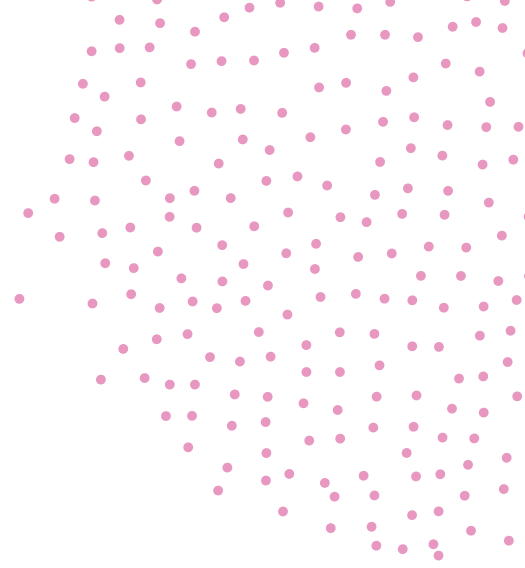

Radish, blackcurrant, apple

70796CCX

Pink colored mix

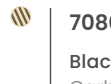

Beetroot juice powder

70794CCX

70798CCX

Orange colored mix

Radish, blackcurrant, apple, safflower, lemon

70799CCX

Brown colored mix

Radish, blackcurrant, apple, safflower, lemon, cacao powder

71101VCX

Dark blue colored mix

Spirulina extract

Sprays

Recommended uses:

Place in a chocolate warming cupboard at 85/95°F (30/35°C) for at least 30 minutes before use.
Shake vigorously 1 to 2 minutes before use.
Spray an even layer onto a chilled product from a distance of 20/25cm, gently squeezing the trigger.
Apply to chocolate or chocolate mouldings.

Handy tip: To stop the nozzle of the bottle becoming clogged, turn the bottle upside down after each use and spray once.
The pea will drop down to the nozzle, stopping any more colored cocoa butter from entering.
The air expelled will then clear the nozzle.
